Den svenske regering satser 50 millioner på nattog til Europa

POLITIKEN

Velkommen til et nyt og mere klimavenligt Rejser

»De har fjernet halvdelen af vognene«:

Klimaaktivisten Greta Thunberg måtte sidde på gulvet, da hun tog DSB-toget gennem Danmark

Politiken Rejser bringer hver uge en reportage fra eller en guide til en destination, du kan komme til uden at flyve. I denne uge går turen til det nordligste Norge med tog.

Austria's ÖBB signs deal for 700 passenger coaches

SHARE

Austrian Federal Railways (ÖBB) has signed a framework agreement to procure up to 700 passenger coaches from Siemens Mobility over the next five years.

The initial order from ÖBB comprises eight nine-car trains for day service and 13 seven-car trains for night service.

42.000 underskrifter afleveret - vil have nattoget til Europa tilbage

SF foreslår milliardstor europæisk togfond

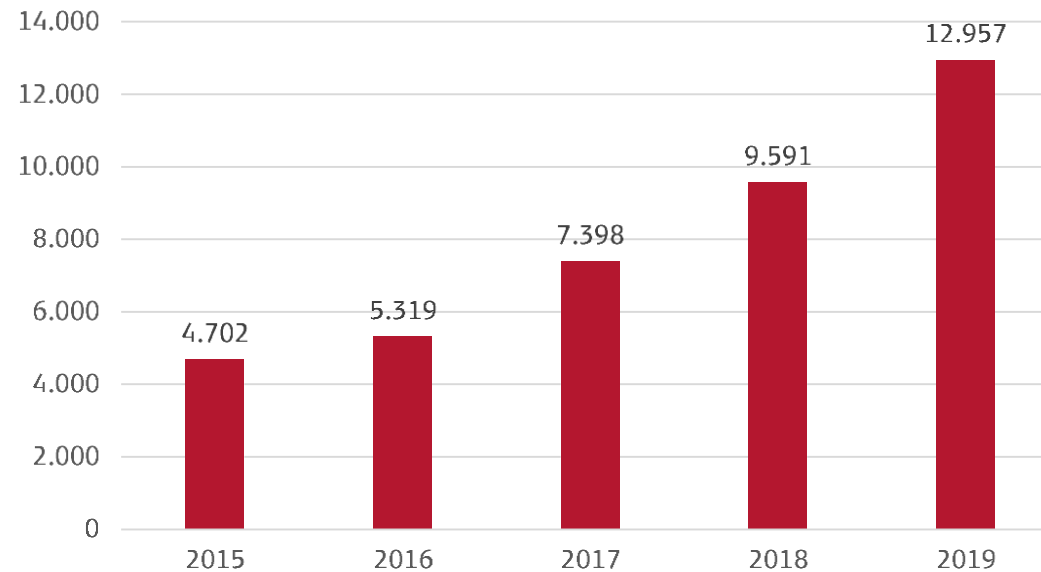

Before Corona: Significant growth in sales of international travel

**GROWTH
2020 -
2019**

32%

January-February 2020
growth in sales of
international tickets and
Interrail at +32% relative
to same period 2019.

Development in number of Interrail Passes sold
2015 - 2019

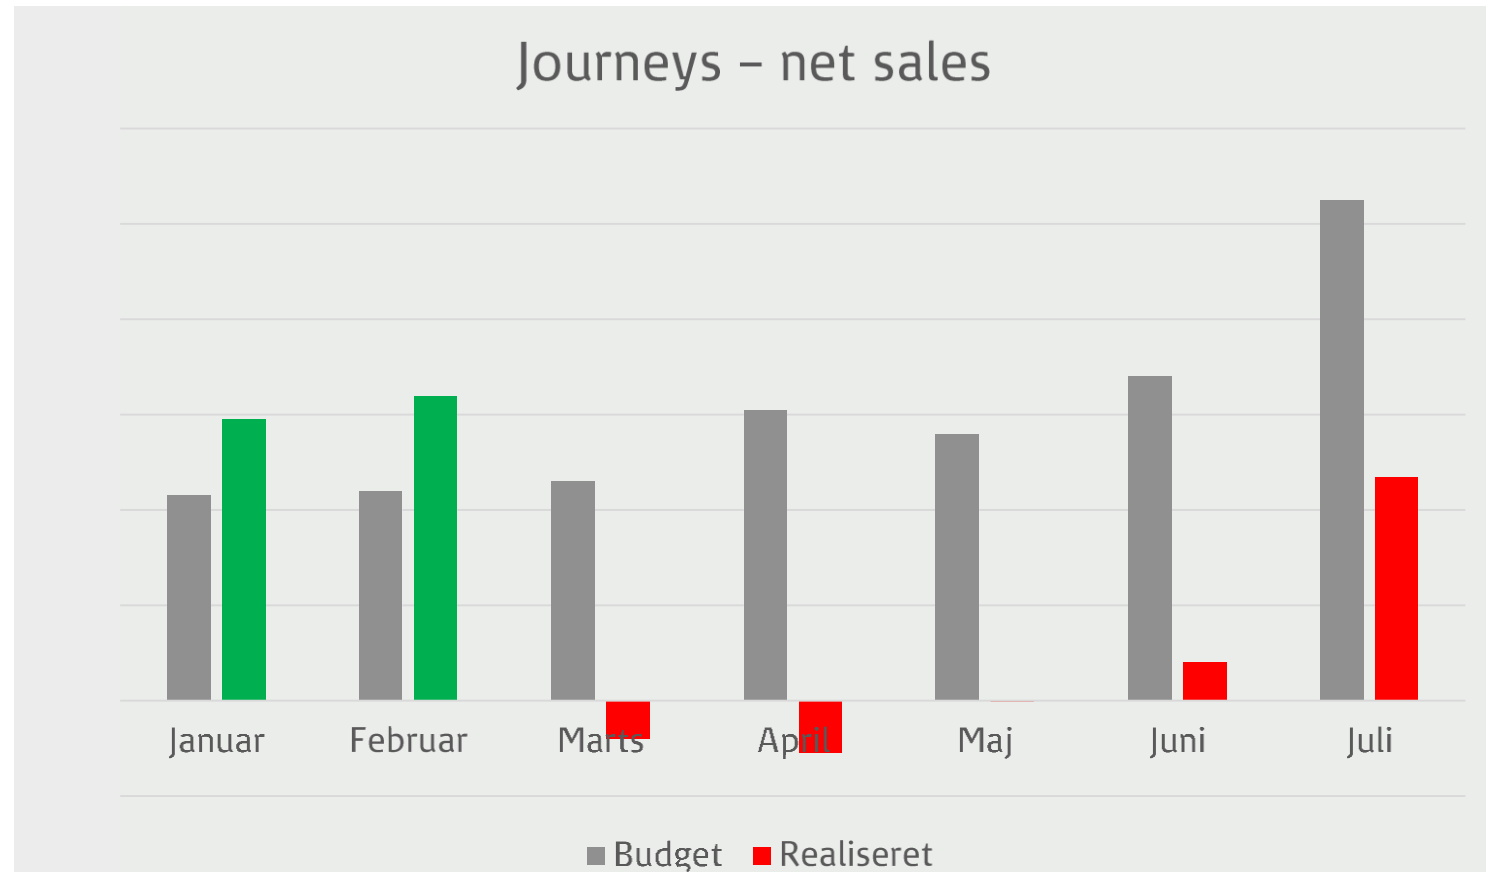

Corona: Many refunds and significant reduction in the sale of new travels

Clear decline due to Corona.

The first months during Corona were marked by an extraordinary number of refunds of tickets.

The red bars indicate that more trips have been repaid than have been sold.

DSB works on 3 areas to strengthen international train travel

1. Procurement of new comfortable and eco friendly trains for international traffic

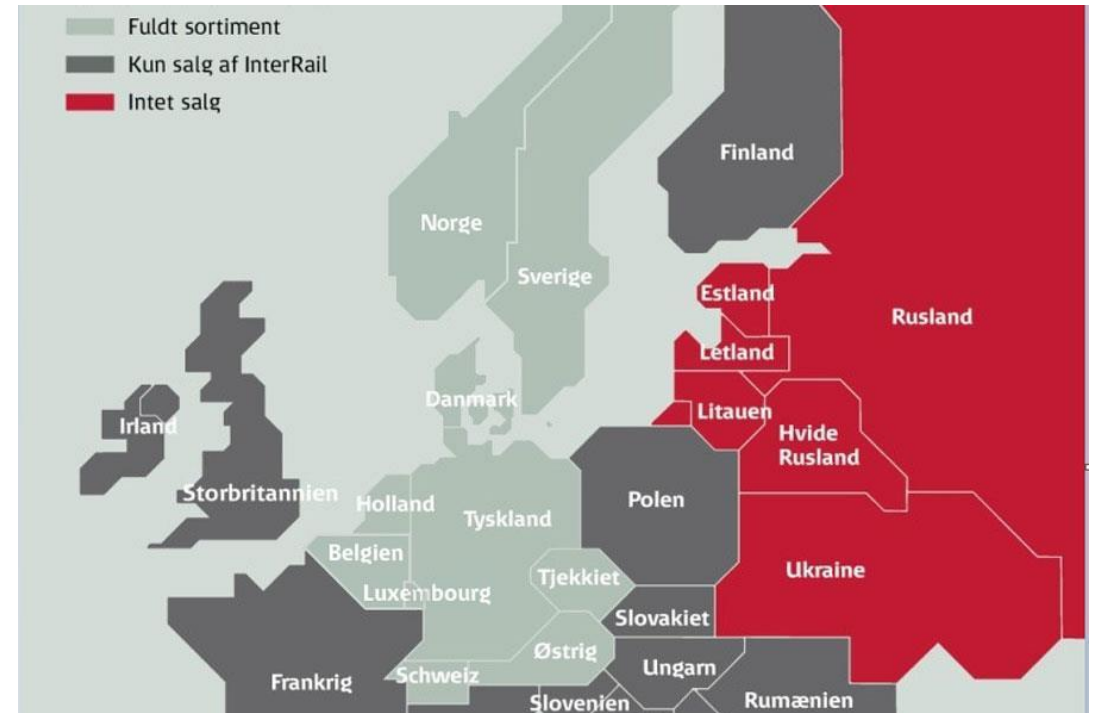

- DSB buys electric locomotives and wagons for 8 trains of 440-510 seats
- 200 km / h
- Can operate in Germany and Denmark
- Delivery mid 2023
Option for additional wagons
- Increased capacity for international traffic
- Future demand due to Fehmarn and trains every two hours to Hamburg

Illustrative: Not final design

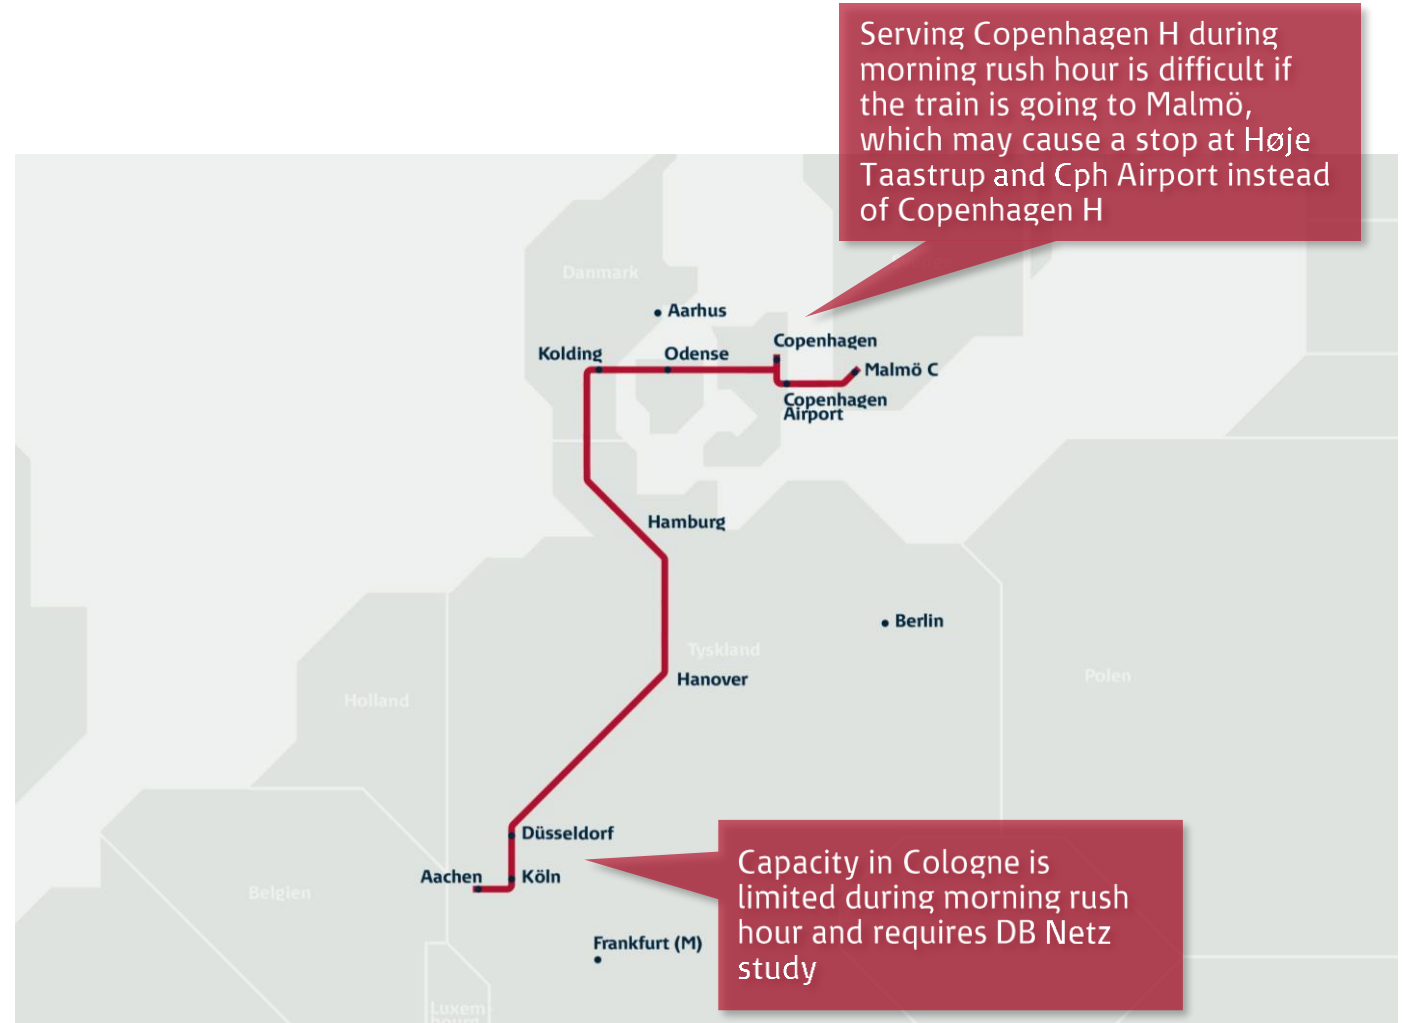

2. DSB expands the number of ticket collaborations

- DSB can sell self-service print-yourself tickets to Germany, the Netherlands, Belgium, Luxembourg, the Czech Republic, Switzerland, Austria (including night trains) and southern Sweden
- DSB also sells tickets to Norway, Sweden, Northern Italy, Paris, and to various night trains, through DSB Customer Center Abroad and DSB Sales & Service at the stations in Copenhagen, Aarhus and Odense.
- In the autumn, DSB expects to expand the possibilities for self-service with print-yourself solutions to Sweden and Italy. A possible option could also be to expand to France, Poland, Croatia and Hungary.

3. Strategic collaborations: Possible concept for 2022/2023 Malmö / Copenhagen - Cologne

- DSB can start up Malmö / Copenhagen / Cologne in mid 2022
- ÖBB / DSB in dialogue about possible rolling stock
- Extension to / from Malmö increases complexity in the short term due to Swedish ATC
- The line will be dependent on financial support
- DSB is following the Swedish initiative/tender closely aiming at starting operation mid 2022

<i>Malmö C</i>	<i>09:26</i>

2025 perspective

- From 2025, additional / new night train carriages can be available
- DSB expects to be able to adapt a new maintenance facility in Næstved for night trains
- The above opens the possibility of more commercially attractive night train destinations
- Fixed Link across Fehmarn Belt further increases the potential
